NIKET MANE

Python Backend Developer

Python | FastAPI | SQLAlchemy | SQL | MySQL | PostgreSQL | REST APIs | AWS

Bangalore, India | +91 6361939644 | niketbmane@gmail.com | AWS SAA-C03 Certified

Portfolio: https://my-portfolio-ejuf13p2a-developer-nick.vercel.app/

PROFESSIONAL SUMMARY

Python Backend Developer with 3 years of experience building REST APIs and backend services with FastAPI and SQLAlchemy. Migrated 100+ Oracle PL/SQL procedures and packages to Python for an enterprise client (Schreiber Foods), built 100+ REST APIs consumed by the client's frontend team, and optimized SQL and Pandas workflows on large datasets. AWS Certified (SAA-C03, CLF-C02) with hands-on deployment on Lambda, EC2, S3 and RDS. Prior React.js experience makes collaboration with frontend teams straightforward.

TECHNICAL SKILLS

Backend: Python, FastAPI, SQLAlchemy ORM, Alembic, Pandas, REST API Design
Databases & SQL: SQL, MySQL, PostgreSQL, Oracle PL/SQL, Query Optimization
API Documentation & Testing: OpenAPI / Swagger UI, Postman, Pytest (unit and integration testing)
Cloud (AWS): Lambda, EC2, S3, RDS, IAM, VPC, Cognito, CloudWatch
Tools & Practices: Git, Jira, Agile/Scrum, Code Review, Root-Cause Troubleshooting, GitHub Copilot
Frontend (Additional): React.js, JavaScript (ES6+), HTML5, CSS3

WORK EXPERIENCE

Python Backend Developer (Consultant) | Turnberry Solutions | Aug 2024 – Present
Client: Schreiber Foods – The Hive Backend Modernization Project

- Migrated 100+ Oracle PL/SQL procedures and packages to Python backend services using FastAPI and SQLAlchemy ORM, resolving legacy logic errors and data inconsistencies found along the way.
- Designed and built 100+ REST APIs documented with Swagger UI / OpenAPI; the client's frontend team integrated them into the Hive application.
- Investigated slow SQL queries and Pandas data-processing workflows, identified performance bottlenecks, and implemented optimizations to improve large-dataset processing efficiency.
- Wrote unit and integration tests with Pytest and validated 100+ API endpoints in Postman to catch regressions before release.
- Deployed and maintained services on AWS (Lambda, EC2, S3, IAM, VPC) within an Agile/Scrum team using Git and Jira; used GitHub Copilot to speed up PL/SQL-to-Python conversion.
- Mentored junior developers and conducted code reviews focused on code and query optimization.

Freelance Developer | Self-Employed | Dec 2023 – Jul 2024

- Delivered 2–3 freelance web projects while building backend depth in Python, FastAPI, SQL and AWS.

Associate Web Developer | Proiuvo Pvt Ltd | Mar 2023 – Dec 2023

- Built modules for a React.js-based LMS & HRMS platform (onboarding, performance evaluation, attendance tracking) with role-based access control.
- Integrated REST APIs from a Java Spring Boot backend and resolved frontend–backend data-sync issues.
- Fixed UI defects found in QA and production, reducing post-release bugs by 40%.

PROJECT

Facility Maintenance Request Management System (AWS)

- Built a maintenance request tracking system with a Python backend on AWS EC2 and RDS (PostgreSQL), with role-based authentication through Amazon Cognito.
- Implemented S3 document uploads, IAM access controls and CloudWatch monitoring.

CERTIFICATIONS

- AWS Certified Solutions Architect – Associate (SAA-C03)
- AWS Certified Cloud Practitioner (CLF-C02)
- React Developer Certificate – Edubuddy Schools Private Limited

EDUCATION

Master of Computer Applications (MCA) | Gogte Institute of Technology, Belagavi | 2020 – 2022
Bachelor of Computer Applications (BCA) | Rani Chennamma University, Belagavi | 2017 – 2020
